STANDARD RULES AND REGULATIONS

PURPOSE

To recognize outstanding student achievement in production by conferring awards of merit in the Chapter's designated awards region.

The presentation of these awards is intended to be an incentive for the continued pursuit of excellence by those studying media and journalism and to focus public attention on outstanding cultural, educational, technological, entertainment, news and informational achievements by undergraduate College/University students.

ELIGIBILITY

1. Projects conceived, produced and executed by undergraduate students at a university, college or technical/vocational school within the Chapter's designated awards region are eligible for student award consideration.
2. Returning students who previously worked as professionals are not eligible.
3. No professional services may have been employed in the production of the entry.
4. Faculty involvement can only be advisory.
5. Entrants must be enrolled as a full-time student during the eligibility period.
6. Students may enter work that was produced as a class assignment, extra-curricular assignment or in conjunction with their academic experience.
7. Students who perform professional work may enter their work in the professional awards competition, provided they meet all eligibility requirements.
8. No entry may be submitted to more than one Chapter's awards.
9. The entry does not need to have been broadcast, cablecast or webcast to be eligible.
10. Entry videos must as they were originally submitted to their advisor. There may not be any edits to the originally completed video except for edits to bring the entry length within the specified category time limit. When editing for time, use only straight cuts with one second of black to denote where content has been removed.
11. There is no limit to the number of entries a school may submit in each category.
12. **Pornographic, violent, defamatory or offensive material is not accepted.** The interpretation of the Awards Committee is final and absolute.
13. Ineligible entries may be disqualified during any phase of the competition.

STUDENT PRODUCTIONS

Students are not considered peer professionals and as such, their regional student productions are not eligible for Emmy® Award recognition. If material is produced as part of a class, for which school credit is received, they are considered a student. If they are paid or working on a project with other “professionals,” and want to enter the Chapter’s Emmy® Award competition, they cannot enter as a student, but instead must pay the appropriate entry fees. The student is then prohibited from entering subsequent student production categories with other classmates.

FEES

There is a \$45 fee per-entry to cover administrative expenses. While the NATAS offers student memberships as non-voting members of their Chapters, membership is not a requirement for advisors or entrants.

ENTRY SUBMISSIONS

A teacher, professor or advisor must approve the entry even if the student handles the submission or upload process themselves. There is no limit to the number of entries a school may submit.

ORIGINAL MATERIAL

At least two-thirds of an entry must consist of original material, unless previously produced material has been given some unique and creative treatment. Entrants must specifically identify and give credit to all non-original material included in the entry. This includes music use.

ENTRY ERRORS AND OMISSIONS

The National Academy of Television Arts & Sciences assumes no responsibility for the acts or omissions of those individuals or entities submitting entries pursuant to this notice. All submitting entities and/or individuals are advised to review submissions with respect to correct name credits and other information. NATAS shall accept all submissions that are not in conflict with any of its rules and regulations.

INTENTIONAL FALSIFICATION

The faculty advisor warrants that they are the party most responsible for verifying that eligibility requirements have been met. The intentional falsification of production credits or entry credits may be the basis for disqualification.

JUDGING AND EVALUATION

Programming Categories are judged on three criteria: content, creativity and execution on a 10-point scale (maximum 30 points); and Craft Categories are judged on two criteria: creativity and execution (maximum 20 points). Judging panels are to be made up of qualified professional judges. Judges have the option of including constructive comments or feedback, to be returned to the student's faculty advisor.

AWARDS

A crystal pillar is awarded to school for entries validated by a professor or teacher. Nominees will be announced via email and midwestemmys.org on **March 12th, 2021**. Recipients will be announced during a virtual video awards ceremony **April 15th, 2021**.

RESTRICTION ON THE USE OF EMMY® MARK:

Schools may refer to the fact that they are recipients of a NATAS Upper Midwest Student Production Award, but may not use the Emmy® name or replica of the Emmy® figure in any form of commercial advertising or promotion.

EXCERPTS

An excerpt is defined as a continuous segment or section from longer content. Unless noted in the category description, no more than three (3) excerpts may be used to bring longer content to the specified category time limit. For entries representing a program series, content must be included from multiple episodes of the series. A maximum of three (3) representative excerpts is permitted. One to two seconds of black, with no audio or slates, must be added to separate excerpts. If the awards committee determines the content of any excerpt is ineligible, the entire entry will be ruled ineligible. Removal of a commercial break between segments does not constitute a separate excerpt.

COMPOSITES

A composite is defined as a sampling of a minimum of two (2) and no more than five (5) representative segments or examples of work that convey to a judging panel the scope, breadth, or range of an individual's talents within the specified craft category. The elements within a composite, unless otherwise noted in the category description, are to be "as aired" with no post-distribution changes, such as additional edits, music or special effects. Composites may include stories or segments in their entirety and/or excerpts from longer content. One to two seconds of black between cuts, with no audio or slates, must be added to separate segments within the composite.
Demo reels or montages are not allowed.

DOUBLE-DIPPING RULE

NATAS Double-Dipping Defined:

To avoid any confusion, the basic formula for “double-dipping” is the following:

An individual entrant can only be recognized once for the same job function, utilizing the same program content.

No single entry may be submitted in its entirety in more than one programming category. Exceptions are given for content that was part of a full newscast.

To be eligible for this exception in the newscast categories, the same entrant cannot be listed on the newscast entry and then use the same material and enter in another programming category.

EXAMPLE: A reporter is listed on a newscast entry. Under this “double-dipping” rule, a portion of the newscast content could be entered in “General Assignment Report” but the same reporter cannot be listed since their name already appeared on the newscast entry. Craft persons, like writers, photographers, editors, etc., are allowed to enter in non-craft categories if they directly contributed to the content of the program or segment, and have the permission of the primary producer. If a craft person does enter as a producer in a non-craft category, they may enter the same content again in their respective craft category.

Examples:

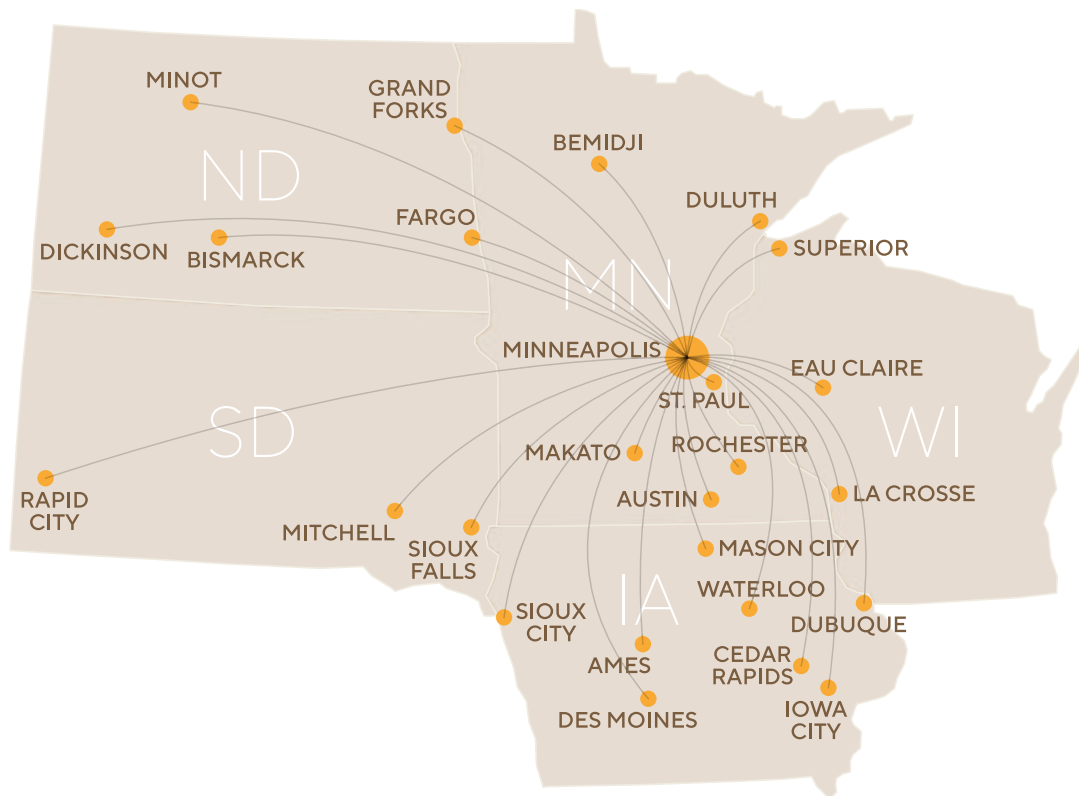

- If a craft person is a writer/photographer, they could enter the non-craft category as only the writer and then the photographer craft category.
- If they are not an entrant on the non-craft entry, they could enter either the writer or photographer category, using the same material since they performed different job functions.
- If they list themselves as **both** writer and photographer on the non-craft category entry, they are ineligible to enter either the writer or photographer craft categories.

They cannot enter either craft category using the dual job title since one category is only for writer and the other only for photographer.
